Chapter 1

Technological World

'Phew! that was close!' exclaimed Cattul who just escaped death from the falling letter C. Dodging through the buidlings, Catull made it safe into the Technological World. He was determined to uncover his capabilities and strengths through this adventure in the Internet.

Time

Base letterforms that might have been at home with a writer of Irish uncials have been streamlined according to late 20th century tastes to create a timeless effect.

A dimension gate appeared out of nowhere and Catull got pulled into it. He could not believe his eyes for what he was looking at. It is gigantic portal.

Curious, Catull dived into the portal and to his surprise, he gained the power to see everything that was happening in the world, as if he were the news. He was then sent into another location.

NEWS AT CATULL'S NORTH STATION

Many others followed, highlighting Jagger's amazing ability. In 1980, Gustav Jagger designed contributing significantly to the Becket for Linotype. Berthold library. Seneca BQ, was released by Berthold in 1977. He started his career at the Bauer typography company.

Chapter 3

It felt Timeless.

It felt Timeless.

Catull then ended up in a dilemma, getting chased by a totem that appeared right after he landed in the Translation city located directly below the Technological World.

It felt Timeless.

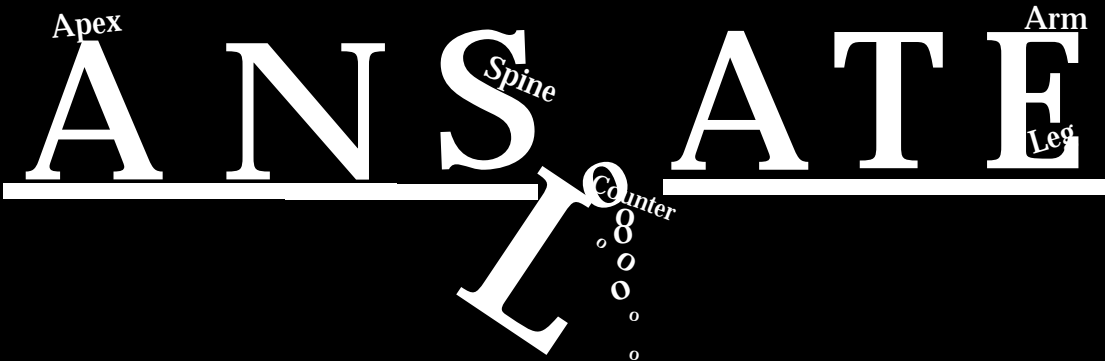

For some reason, Catull felt strange, he was no longer afraid of the obstacles he faced.

It felt Timeless.

Power was surging into Catull's body he dashed passed the buildings and made it to safety by descending down in the crevice nearby.

It felt Timeless.

Catull realised he had acquired a new ability. That is, the ability to understand all kinds of languages.

Es fühlte sich zeitlos.

Catull ventured into the crevice and saw an amazing sight. Money. Money was everywhere, Notes, coins, gold doubloons, gold bars. It felt luxurious in there. 'Im rich!' he shouted as he activated his vacuum function in his machine and happily took all the cash with him. After he left the area, he noticed that he can calculate all kinds of currencies.
